Why am I feeling like this? teenagers ask, as they experience anxiety and depression at higher rates than ever before. In his latest book, counselor David Murray introduces readers to the personal stories of 18 teens who have dealt with different types of anxiety or depression and the freedom they experienced through practical steps and tools. This book will not only explain common causes of anxiety, but it will also equip teens with keys to unlock the chains of anxiety and depression. By utilizing these God-given truths and tactics, teens will experience new liberty, peace, and joy in their lives. Are we hapless victims of life's whims? Are we driven along by some blind and impersonal force? Are we battered by circumstances beyond all control? A thousand times, "No!" says pastor and author Alistair Begg. Instead, Begg says we are the objects of God's providential care. We reside under His guiding and protecting hand. In this richly textured study of Joseph's life, readers will see God at work shaping Joseph's circumstances so that he can ultimately redeem and reconcile his family. And they'll see the hand of God in their own lives, lovingly guiding them through their disappointments and struggles to a place of peace. It's an amazing and comforting fact: God rules and overrules in the circumstances of life. God's authority is neither capricious nor vindictive—quite the contrary—God works through the circumstances of life to bring about something miraculous, something abundantly good, even out of what we perceive to be our darkest moments. We can entrust the baggage of our past, the fears of our present, and the prospects of our future to the God who cares. Techniques and theory for processing otoliths from tropical marine fish have developed only recently due to an historic misconception that these organisms could not be aged. Otoliths are the most commonly used structures from which daily, seasonal or annual records of a fish's environmental history are inferred, and are also used as indicators of migration patterns, home range, spatial distribution, stock structure and life history events. A large proportion of projects undertaken on tropical marine organisms involve removal and processing of calcified structures such as otoliths, statoliths or vertebrae to retrieve biological, biochemical or genetic information. Current techniques and principles have evolved rapidly and are under constant modification and these differ among laboratories, and more particularly among species and within life history stages. *Tropical fish otoliths: Information for assessment, management and ecology* is a comprehensive description of the current status of knowledge about otoliths in the tropics. This book has contributions from leading experts in the field, encompassing a tropical perspective on daily and annual ageing in fish and invertebrates, microchemistry, interpreting otolith microstructure and using it to back-calculate life history events, and includes a treatise on the significance of validating periodicity in otoliths. *Economics for Business* 5th edition is an essential introduction to economics tailor-made for business students. Two Ripper experts examine unsolved murders—from Great Britain and around the world—that occurred during the era of the notorious killer. The number of women murdered and mutilated by Jack the Ripper is impossible to know, although most researchers now agree on five individuals. These five canonical cases have been examined at length in Ripper literature, but other contemporary murders and attacks bearing strong resemblance to the gruesome Ripper slayings have received scant attention. These unsolved cases are the focus of this intriguing book. The volume looks at a dozen female victims who were attacked during the years of Jack the Ripper's murder spree. Their terrible stories—a few survived to bear witness, but most died of their wounds—illuminate key aspects of the Ripper case and the period: the gangs of London's Whitechapel district, Victorian prostitutes, the public panic inspired by the crimes and fueled by journalists, medical practices of the day, police procedures and competency, and the probable existence of other serial killers. The book also considers crimes initially attributed to Jack the Ripper in other parts of Britain and the world, notably New York, Jamaica, and Nicaragua. In a final chapter, the drive to identify the Ripper is examined, looking at suspects as well as several important theories, revealing the lengths to which some have gone to claim success in identifying Jack the Ripper. "When it comes to the meticulous details of a murder, the minute-

by-minute examination of a crime and its policing, Messrs. Begg and Bennett are the very best in the true-crime genre.”—Judith Flanders, Wall Street Journal Prayer is foundational to the Christian life, but many people don’t understand it. What is it for? How does it work? Why do we do it? This short and accessible book explains what prayer is, why it exists and how it can encourage us in our life of faith. Written by a pastor with years of teaching and counselling experience, Why We Pray doesn’t simply tell readers why they should pray, but instead focuses on four blessing-filled reasons that will help us want to pray. Rather than feeling discouraged and disheartened by our inconsistency in prayer, we feel reinvigorated to approach God with confidence and joy, delighted by the privilege of talking directly to our heavenly Father. Why would a loving and powerful God allow so much pain and suffering? In WHY SUFFERING? Ravi Zacharias and Vince Vitale carefully walk you through a variety of responses that considered together provide a clear, comprehensive, and convincing answer. Responses like: Where there is the possibility of love, there has to be the reality of freedom, and therefore the possibility of pain. Wishing God had made a different world is to wish yourself out of existence. In comparison with other world religions, the Christian response is highly distinctive. Here is a book written with great respect for the complexity of the issue, recognizing that some who read it will be in the trenches of deep suffering themselves and others questioning the very existence of a loving God. WHY SUFFERING? provides an answer to the problem of pain and suffering with emotional sensitivity and intellectual integrity. What makes love last a lifetime? No one marries intending to fail. Each couple that says "I do" hopes for a long and beautiful life together. But as time passes, many drift apart, and some eventually call it quits. But what about the ones who stay the course, who don’t just bear through marriage but actually love it? What’s their secret? It’s simple, really: there is no secret. They follow God’s revealed design. In Lasting Love, Alistair Begg unfolds this design. After laying theological foundations, he builds levels of application, showing how God’s blueprint makes marriages sturdy and vibrant. Ideal for both those considering marriage and those already married, Lasting Love is a comprehensive book on the essentials of a great and godly union, such as: What the Bible says about marriage vows, gender roles, and parenting What to look for in a potential spouse How to cure and prevent marital decay Heed the advice of this pastor who has seen too many marriages come and go. Let yours last a lifetime. Includes a study guide for spouse and group discussion to help you put the book’s principles to practice. Aims to teach students how economics really works in the world. In an age that grants plausibility to every idea and certainty to none... WHAT CAN YOU BELIEVE? If you've ever wandered a mall, browsed a bookstore, or explored the Internet, you've seen the evidence: We live in a culture desperately searching for meaning. Like the ancient Greeks, we are haunted by questions. Where did this world come from? Why am I here? As individuals and as a society, we are restless, longing for something, or someone, to believe in. There are perhaps millions of potential answers—but only one truth that wholly explains, resolves, and offers hope for the plight of man. Of this life-giving message, Peter, the disciple of Jesus Christ, wrote: "Even angels long to look into these things." Within these pages, author Alistair Begg explores "these things" more fully, offering fresh insights into the mystery and power of the gospel account and presenting a convincing argument to all those seeking answers to the meaning of life. This remarkable book tells you everything you need to know about vaccines. Having nearly 40 years' experience of the subject, the author covers the history of vaccines, how they work, how research is carried out, their safety, how they are used in society, the inside track on COVID-19 and what the future holds. It is a deeply personal account, with anecdotes involving a cow called Blossom, a hospital in the Caribbean, a crocodile-infested lake in Malawi, an encounter with Russian soldiers in Prague and many others. An A-to-Z section covers every vaccine from Anthrax to Yellow Fever. It will educate, entertain and enlighten the vaccine scientific community and public health practitioners. Key Features • Explores a highly topical concept of vaccines in a comprehensive and easy-to-read manner • Engages readers with relatable and interesting anecdotes • Provides a balanced, factual counter to the huge amount of current vaccine misinformation God’s code of conduct is as relevant and insistent today as it’s always been. The landscape of contemporary society reveals that we neither know nor care much about the Law of God. There is: A general lawlessness in the lives of professing Christians. An absence of the fear of God in public worship and private living. A growing confidence in ourselves and doubt concerning God and His Word. Amidst this moral crisis, the message of the Ten Commandments can give us order, direction, and hope. With dynamic implications for how each of us lives every day, Pathway to Freedom will challenge you to think long and hard about the significance of God’s Law. “We have entered into a time of moral crisis in our culture and in the church as well. Stories about divorce, adultery, and the individualized picking and choosing of doctrines abound. Pathway to Freedom is forthright and necessary teaching that today’s church cannot afford to ignore. How now shall we live? The beginning of the answer must be in obedience to God’s moral law summarized in the Ten Commandments.” —CHARLES COLSON, PRISON FELLOWSHIP MINISTRIES, WASHINGTON, D.C. Originally published: Uhrichsville, Ohio: Barbour Publishing, Inc., [2011]. Mary Celeste is an iconic mystery - a perfectly seaworthy ship found wandering aimlessly at sea, her crew strangely and inexplicably missing. Paul Begg tells the story of the discovery of Mary Celeste and the people who vanished, and investigates over a century’s worth of speculation and survivors’ tales, searching for the facts behind one of the world’s great mysteries. Learn from the book of Daniel how to live confidently for Christ today. What does it look like to live with joy in a society that does not like what Christians believe, say or do? It’s tempting to grow angry, keep our heads down, retreat or just give up altogether. But this isn’t the first time that God’s people have had to learn how to live in a pagan world that opposes God’s rule. In this realistic yet positive book, renowned Bible teacher Alistair Begg examines the first seven chapters

of Daniel to show us how to live bravely, confidently and obediently in an increasingly secular society. Readers will see that God is powerful and God is sovereign, and even in the face of circumstances that appear to be prevailing against his people, we may trust him entirely. We can be as brave as Daniel if we have faith in Daniel's God! "The message of Daniel is incredibly relevant for us in our generation. Not because it maps out a strategy for how to deal with our new lack of status ... or because Daniel was a great man and we need to follow his example. The reason is that it will help us to believe in Daniel's God." Alistair Begg, author. When *Enemy Combatant* was first published in the United States in hardcover in 2006 it garnered sensational reviews, and its author was featured in the *New York Times*, the *Los Angeles Times*, on National Public Radio, and on ABC News. A second generation British Muslim, Begg had been held by the U.S. military for more than three years before being released without charge in January of 2005. His memoir is the first published account by a Guantánamo detainee of life inside the infamous prison. Writing in the *Washington Post Book World*, Jane Mayer described *Enemy Combatant* as "fascinating . . . Begg provides some ideological counterweight to the one-sided spin coming from the U.S. government. He writes passionately and personally, stripping readers of the comforting lie that somehow the detainees aren't really like us, with emotional attachments, intellectual interests and fully developed humanity." Recommended by the *Financial Times* and *Tikkun* magazine and a *ColorLines* Editors' Pick of Post-9/11 Books, *Enemy Combatant* is "a forcefully told, up-to-the-minute political story . . . necessary reading for people on all sides of the issue" (*Publishers Weekly*, starred review).

Europe has a new central bank. It must develop its version of accountability and public debate over monetary policies. It is natural for CEPR, as a network of policy-oriented academic economists, to contribute to the establishment of a new tradition. Monitoring the European Central Bank (MECB) brings together a group of economists internationally known for their work on macroeconomics and monetary policy. MECB will monitor the European economy and the work of the ECB. Its analyses will be presented to the public, including the European Parliament and the media. A full MECB report is published each year, complemented by an Update that draws on recent publications of the ECB.

Publication bias is the tendency to decide to publish a study based on the results of the study, rather than on the basis of its theoretical or methodological quality. It can arise from selective publication of favorable results, or of statistically significant results. This threatens the validity of conclusions drawn from reviews of published scientific research. Meta-analysis is now used in numerous scientific disciplines, summarizing quantitative evidence from multiple studies. If the literature being synthesised has been affected by publication bias, this in turn biases the meta-analytic results, potentially producing overstated conclusions. *Publication Bias in Meta-Analysis* examines the different types of publication bias, and presents the methods for estimating and reducing publication bias, or eliminating it altogether. Written by leading experts, adopting a practical and multidisciplinary approach. Provides comprehensive coverage of the topic including: Different types of publication bias, Mechanisms that may induce them, Empirical evidence for their existence, Statistical methods to address them, Ways in which they can be avoided. Features worked examples and common data sets throughout. Explains and compares all available software used for analysing and reducing publication bias. Accompanied by a website featuring software, data sets and further material. *Publication Bias in Meta-Analysis* adopts an inter-disciplinary approach and will make an excellent reference volume for any researchers and graduate students who conduct systematic reviews or meta-analyses. University and medical libraries, as well as pharmaceutical companies and government regulatory agencies, will also find this invaluable.

'The clearest, most accurate, and most up-to-date account of the Ripper murders, by one of Britain's greatest and most respected experts on the "autumn of terror" in Victorian London.' William D. Rubenstein, Professor of Modern History, University of Wales, Aberystwyth

England in the 1880s was a society in transition, shedding the skin of Victorianism and moving towards a more modern age. Promiscuity, moral decline, prostitution, unemployment, poverty, police inefficiency... all these things combined to create a feeling of uncertainty and fear. The East End of London became the focus of that fear. Here lived the uneducated, poverty-ridden and morally destitute masses. When Jack the Ripper walked onto the streets of the East End he came to represent everything that was wrong with the area and with society as a whole. He was fear in a human form, an unknown lurker in the shadows who could cross boundaries and kill. *Jack the Ripper: The Definitive History* is not yet another attempt to identify the culprit. Instead, the book sets the murders in their historical context, examining in depth what East London was like in 1888, how it came to be that way, and how events led to one of the most infamous and grisly episodes of the Victorian era. Most of us wonder: is there something more to life? *Finding More* tells the stories of ten people who asked that question, and found the answer. These compelling profile pieces introduce you to people from all kinds of backgrounds who became Christians when they encountered the only One who gives us more: Jesus Christ. As their stories unfold, you'll

be shown who Jesus is, why he came, and what it means to follow him. This is an ideal book to give to guests on a Christianity Explored course, or to show friends what they might stand to gain by investigating Jesus for themselves. Whoever you are and whatever your background, this book will have someone you relate to or a story which intrigues you. Is there something more to life? It's time to find out for yourself. Assuming no prior knowledge, the second edition of Foundations of Economics introduces students to both microeconomic and macroeconomic principles. This is the ideal text for foundation degrees and non-specialist courses for first year undergraduates.
