Linguistics: An Introduction to Linguistic Theory is a textbook, written for introductory courses in linguistic theory for undergraduate linguistics majors and first-year graduate students. Twelve major figures in the field bring their expertise to each of the core areas of the field - morphology, syntax, semantics, phonetics, phonology, and language acquisition. In each section the book is concerned with discussing the underlying principles common to all languages, showing how these are revealed in language acquisition and in the specific grammars of the world's languages. Theoretical concepts are introduced through the analysis of a wide set of language data from Arabic to Zulu. The student will learn how to do linguistics by working through real linguistic data. Each section explains how to define and solve a problem; organizes the data into paradigms revealing the structured patterns in the data; formulates generalizations based on these patterns; proposes rules or principles to account for the generalization; seeks independent evidence in its argument for the proposed theoretical construct. The book brings the latest developments in theoretical linguistics to bear in its discussion of the traditional issues. It covers these subjects in greater depth than is found in most introductory texts permitting the student to proceed directly, after using this text, to graduate courses in the field. It contains problems, a glossary, and a bibliography for further reading. Linguistics is supported by an instructor's manual. This long-awaited volume provides an answer key to the drills and exercises contained in each of the units of John F. Collins's bestselling A Primer of Ecclesiastical Latin. Written for those charged with the responsibility of teaching the Latin of the church, the primer aims to give the student--within one year of study--the ability to read ecclesiastical Latin. Thirty-five instructional units provide the grammar and vocabulary, and supplemental readings offer a survey of church Latin from the fourth century to the Middle Ages. Included is the Latin of Jerome's Bible, of canon law, of the liturgy and papal bulls, of scholastic philosophers, and of the Ambrosian hymns. ABOUT THE AUTHOR: John R. Dunlap is a senior lecturer in classics at Santa Clara University, where he has taught Latin, Greek, and classical literature for more than 30 years. A famous 5th-8th grade world history text. Guides the student from Creation through the Flood, pre-historic people, the ancient East, Greeks, Romans, the triumph of the Church, Middle Ages, Renaissance, discovery of the New World and Protestant Revolt, ending with the early exploration of the New World. A great asset for home-schoolers and Catholic schools alike! Provides the answers to the workbook and the script to accompany the workbook audio CD. The Study Books are designed to be used in conjunction with the core books of the Cambridge Latin Course. The Answer Key provides informative and comprehensive answers to the exercises in Student Study Book I. The Key will be of use to teachers, students and independent learners. Clearly structured answers are given for material which includes a rich variety of comprehension and translation exercises; activities to practise the language and grammar; vocabulary checklists; investigations into Roman civilisation and revision sessions. Includes answers to the Lab Manual plus the script for the Lab Audio CD's.
