Mirrors and Windows Jun 24 2020

Windows and Mirrors Apr 03 2021 The experience of digital art and how it is relevant to information technology. In *Windows and Mirrors: Interaction Design, Digital Art, and the Myth of Transparency*, Jay David Bolter and Diane Gromala argue that, contrary to Donald Norman's famous dictum, we do not always want our computers to be invisible "information appliances." They say that a computer does not feel like a toaster or a vacuum cleaner; it feels like a medium that is now taking its place beside other media like printing, film, radio, and television. The computer as medium creates new forms and genres for artists and designers; Bolter and Gromala want to show what digital art has to offer to Web designers, education technologists, graphic artists, interface designers, HCI experts, and, for that matter, anyone interested in the cultural implications of the digital revolution. In the early 1990s, the World Wide Web began to shift from purely verbal representation to an experience for the user in which form and content were thoroughly integrated. Designers brought their skills and sensibilities to the Web, as well as a belief that a message was communicated through interplay of words and images. Bolter and Gromala argue that invisibility or transparency is only half the story; the goal of digital design is to establish a rhythm between transparency—made possible by mastery of techniques—and reflection—as the medium itself helps us understand our experience of it. The book examines recent works of digital art from the Art Gallery at SIGGRAPH 2000. These works, and their inclusion in an important computer conference, show that digital art is relevant to technologists. In fact, digital art can be considered the purest form of experimental design; the examples in this book show that design need not deliver information and then erase itself from our consciousness but can engage us in an interactive experience of form and content.

More Mirrors in the Classroom Dec 23 2022 More Mirrors in the Classroom: Using Urban Children's Literature to Increase Literacy is the first book in the Kids Like Us series. It includes research summaries, guidelines for text selection, and a step-by-step guide to increasing the cultural relevance of literacy instruction with urban children's literature.

Contemporary Challenges in Teaching Young Children Feb 13 2022 Contemporary Challenges in Teaching Young Children provides both veteran and aspiring early childhood educators with the information and tools they need to build on their understanding of developmentally appropriate practice. Teachers face many challenges, including family configuration, social and political stressors related to accountability requirements, funding shortages, and the resulting need to teach with fewer resources. This innovative book focuses exclusively on problem-solving at the classroom level and fosters creative methods of ensuring best practices are in place for all children, including those with limited experience in formal social settings and a lack of self-regulatory behaviors. Drawing on current research and their own wealth of experience, expert contributors cover topics from the critical importance of social-emotional learning to culturally responsive teaching to using technology to empower teachers and learners. Written in accessible, non-technical language, this book addresses complex factors affecting child development, guiding readers through the best strategies for tackling real problems in their practice.

Publishing is proud to present its exciting new literature program, *Mirrors & Windows*. This seven-level program is built on a collection of rich, diverse, and timeless writings by renowned, award-winning authors. *Mirrors & Windows* challenges students to reach their maximum potential while differentiating instruction for individual learners. Using a gradual release approach to reading, students will achieve a deep comprehension of the material and a greater appreciation of the literary genres. They will learn to recognize and make connections between the selections, the world, and themselves. Along the way, they will discover a love of literature that will grow throughout their lives. Truly, literature will turn mirrors into windows

for your students. The finest literature, timeless authors, topics and themes that spotlight big ideas -- these are just a few of the compelling reasons to make Mirrors & Windows a part of your curriculum. - Publisher.

Collected Perspectives Jul 18 2022

When Mirrors Are Windows Jun 17 2022 In an ocean where myriads of rivers converge, can one sole river lend the ocean its distinct flavour? For someone who is at home with several languages, literary traditions and disciplines, is it possible for one form to criss-cross the landscape of another? In a poet's world of mirrors, where stream and earth are sky, one may 'sometimes count every orange on a tree', but can one count 'all the trees in a single orange'? In this volume, Guillermo Rodríguez explores these possibilities by analysing the works of one of India's finest poets, translators, essayists and scholars of the twentieth century, A.K. Ramanujan (1929-1993).

Critical Multicultural Analysis of Children's Literature Apr 15 2022

"Children's literature is a contested terrain, as is multicultural education. Taken together, they pose a formidable challenge to both classroom teachers and academics... Rather than deny the inherent conflicts and tensions in the field, in *Critical Multicultural Analysis of Children's Literature: Mirrors, Windows, and Doors*, Maria José Botelho and Masha Kabakow Rudman confront, deconstruct, and reconstruct these terrains by proposing a reframing of the field... Surely all of us – children, teachers, and academics – can benefit from this more expansive understanding of what it means to read books." Sonia Nieto, From the Foreword

Critical multicultural analysis provides a philosophical shift for teaching literature, constructing curriculum, and taking up issues of diversity and social justice. It problematizes children's literature, offers a way of reading power, explores the complex web of sociopolitical relations, and deconstructs taken-for-granted assumptions about language, meaning, reading, and literature: it is literary study as sociopolitical change. Bringing a critical lens to the study of multiculturalism in children's literature, this book prepares teachers, teacher educators, and researchers of children's literature to analyze the ideological dimensions of reading and studying literature. Each chapter includes recommendations for classroom application, classroom research, and

further reading. Helpful end-of-book appendixes include a list of children's book awards, lists of publishers, diagrams of the power continuum and the theoretical framework of critical multicultural analysis, and lists of selected children's literature journals and online resources.

Still Life Oct 21 2022

The Rust Programming Language (Covers Rust 2018) Oct 29 2020 The official book on the Rust programming language, written by the Rust development team at the Mozilla Foundation, fully updated for Rust 2018. The Rust Programming Language is the official book on Rust: an open source systems programming language that helps you write faster, more reliable software. Rust offers control over low-level details (such as memory usage) in combination with high-level ergonomics, eliminating the hassle traditionally associated with low-level languages. The authors of The Rust Programming Language, members of the Rust Core Team, share their knowledge and experience to show you how to take full advantage of Rust's features--from installation to creating robust and scalable programs. You'll begin with basics like creating functions, choosing data types, and binding variables and then move on to more advanced concepts, such as: Ownership and borrowing, lifetimes, and traits Using Rust's memory safety guarantees to build fast, safe programs Testing, error handling, and effective refactoring Generics, smart pointers, multithreading, trait objects, and advanced pattern matching Using Cargo, Rust's built-in package manager, to build, test, and document your code and manage dependencies How best to use Rust's advanced compiler with compiler-led programming techniques You'll find plenty of code examples throughout the book, as well as three chapters dedicated to building complete projects to test your learning: a number guessing game, a Rust implementation of a command line tool, and a multithreaded server. New to this edition: An extended section on Rust macros, an expanded chapter on modules, and appendixes on Rust development tools and editions.

Impact on Reading: Mirrors and windows Aug 27 2020

Free Within Ourselves Aug 07 2021 Presents a history of African American literature for children from its beginnings in the oral culture of the slaves of the South to the initial church works of the nineteenth

century and its full emergence as a literature following the Harlem Renaissance.

Windows and Mirrors Mar 02 2021 This is a poetry book includes 25 poems split into two sections: windows and mirrors. Window poems are about others while mirror poems are about my own life. The first poem of each collection has a QR code in the corner. When scanned, the QR code will pull up a video of me performing the piece. I hope it brings it to life and shows all the emotions that went into this portfolio. This book is perfect for anyone who enjoys poetry: both happy, sad, and every emotion in between. I hope it is a window into the world and mirror of mine.

The King in the Window Jan 20 2020 Eleven-year-old Oliver, an American boy residing in Paris, discovers, much to his astonishment, that phantoms live within the windowpanes and have selected Oliver to lead a war against the "soul-stealers" that inhabit mirrors.

Mirrors and Windows Apr 22 2020

Mirrors to Windows Jan 12 2022 Ladies, we all share the same desires... to be loved and called lovely. But chances are, true love and true beauty can't be perceived or experienced from your current point of view. The dangers of a poor or false self-image are serious. Many young ladies are driven to the brink of self-destruction by their impaired judgment, desire to be loved, and longing for true security. Katie Messer knows all too well about such toxic thoughts, about how it felt being trapped in her own "plastic prison," and about the dark roads she traveled in hopes of finding a love that seemed too good to be true. Yet all the while, a True Love was waiting for her to return. In Mirrors to Windows, Katie demonstrates a simple but dynamic change of viewpoint. Stop fixating on the internal (Mirrors): self-image, perceived needs, insatiable longing for acceptance and love. Instead, steer your eyes outward (Windows), and you'll see with clarity that the best life and the truest love have been waiting for you all along. God is waiting to blow the roof off your expectations and desires. It is God who saves, God who redeems, and God who takes all demented

attempts of our own searching and striving for happiness and belonging-and turns it into something truly beautiful as we embrace the Cross of Christ and His divine calling.

Mirrors, Windows, and Open DoorsMay 16 2022

Mirrors Windows and Open DoorsMay 24 2020 This is a beautiful book on becoming real. It teaches an out-in-out model which reflects the essence of the world's wisdom literature. It reads like a tablet from the Book of Life. It feels like a personal gift from a caring, understanding heart. This is truly an outstanding book filled with vision and clarity which can help every individual and family achieve their personal goals. All patients need to read and understand these writings. Mirrors, Windows, and Open Doors is a splendid book that guides the reader to a refreshingly new look at the internal conflicts and lack of harmony that exists within most of us as we compare who we are with what we do and say in our daily living. This wonderful small book will turn out to be a great treasure to all those who read it, ponder its contents, and then read and reflect on its beauty and candor. It is must reading for parents, educators, and all those who need a new lease on life. In a delightful, uplifting way, Mirrors, Windows, and Open Doors dispenses great wisdom, insights and truth. Through the unique metaphor of mirrors, windows, and open doors it describes the road to a happy, productive, and authentic life. Its ideals are a wonderful solution to our modern-day need to reclaim the tried-and-true virtues of the past. It obviously comes from a lifetime of observing, thinking, and caring about others. It conveys a feeling of love, peace and hope that will draw me back to it again and again to review and master its messages.

Green Is a Chile Pepper Sep 27 2020 "A fun dive into culture and vocabulary (both English and Spanish) as well as color. And one more thing: the art work is just amazing!" —New York Family International Latino Book Award Winner Pura Belpré Award, Illustrator Honor Green is a chile pepper, spicy and hot. Green is cilantro inside our pot. In this lively picture book that Booklist described as "a cheerful color-concept book that presents a slice of Latino culture through food and fun," children discover a world of colors all around them: red is spices

and swirling skirts, yellow is masa, tortillas, and sweet corn cake. Many of the featured objects are Latino in origin, and all are universal in appeal. With rich, boisterous illustrations, fun-to-read rhyming text, and an informative glossary, this playful concept book will reinforce the colors found in every child's day! "Thong's buoyant rhyming text is perfect for reading aloud and Parra's stunning folk-art illustrations offer vibrant scenes that children will return to again and again."

—School Library Journal (starred review) "Bold illustrations, rhyming words and Spanish color words make this a special read for preschoolers. An included Spanish glossary highlights cultural facts that make this a great read for older children as well." —Spartanburg Herald-Journal "Very rare picture book featuring Latino kiddos. Lovely on the eye. Rhymes to boot." —Elizabeth Bird, New York Times Public Library Collections Specialist

How to Make and Use a Magic Mirror Dec 19 2019 The only complete guide to making and using a black mirror. A must for the developing magician.

Incorporating LGBTQ+ Identities in K-12 Curriculum and Policy Mar 22 2020 Educators in the K-12 school environment work diligently to help at-risk students find success in the classroom. One particular group of at-risk students is the LGBTQ+ population. K-12 students

who identify as lesbian, gay, bisexual, transgender, or queer often fear the repercussions of disclosing this information in the classroom environment. Homophobia from fellow students, faculty, and/or administrators can be in the form of bullying, lack of acknowledgement of identity, absence in curriculum, etc. There is a strong need for this group of students to be included in the landscape of curriculum design and policymaking. *Incorporating LGBTQ+ Identities in K-12 Curriculum and Policy* is a critical research publication that provides comprehensive research on inclusive curriculum design and education policy that specifically impacts LGBTQ+ students. Featuring an array of topics such as gender diversity, mental health services, and preservice teachers, this book is essential for teachers, counsellors, school psychologists, therapists, curriculum developers, instructional designers, principals, school boards, academicians, researchers, administrators, policymakers, and students.
