Lovecraft Country Jan 25 2023 Now a major HBO series from J.J. Abrams, Misha Green and Jordan Peele (Director of Get Out) A chimerical blend of magic, power, hope, and freedom that stretches across time, touching diverse members of two black families, Matt Ruff's Lovecraft Country is a devastating kaleidoscopic portrait of racism – the terrifying specter that continues to haunt us today. Chicago, 1954. When his father Montrose goes missing, twenty-two year-old Army veteran Atticus Turner embarks on a road trip to New England to find him, accompanied by his Uncle George – publisher of The Safe Negro Travel Guide – and his childhood friend Letitia. On their journey to the manor of Mr. Braithwhite – heir to the estate that owned one of Atticus's ancestors – they encounter both mundane terrors of white America and malevolent spirits that seem straight out of the weird tales George devours. At the manor, Atticus discovers his father in chains, held prisoner by a secret cabal named the Order of the Ancient Dawn – led by Samuel Braithwhite and his son Caleb – which has gathered to orchestrate a ritual that shockingly centers on Atticus. And his one hope of salvation may be the seed of his – and the whole Turner clan's – destruction. 'At every turn, Ruff has great fun pitting mid-twentieth-century horror and sci-fi clichés against the banal and ever present bigotry of the era' - New York Times Book Review.

Forms Jul 19 2022 A radically new way of thinking about form and context in literature, politics, and beyond Forms offers a powerful new answer to one of the most pressing problems facing literary, critical, and cultural studies today—how to connect form to political, social, and historical context. Caroline Levine argues that forms organize not only works of art but also political life—and our attempts to know both art and politics. Inescapable and frequently troubling, forms shape every aspect of our experience. Yet, forms don't impose their order in any simple way. Multiple shapes, patterns, and arrangements, overlapping and colliding, generate complex and unpredictable social landscapes that challenge and unsettle conventional analytic models in literary and cultural studies. Borrowing the concept of "affordances" from design theory, this book investigates the specific ways that four major forms—wholes, rhythms, hierarchies, and networks—have structured culture, politics, and scholarly knowledge across periods, and it proposes exciting new ways of linking formalism to historicism and literature to politics. Levine rereads both formalist and antiformalist theorists, including Cleanth Brooks, Michel Foucault, Jacques Rancière, Mary Poovey, and Judith Butler, and she offers engaging accounts of a wide range of objects, from medieval convents and modern theme parks to Sophocles's Antigone and the television series The Wire. The result is a radically new way of thinking about form for the next generation and essential reading for scholars and students across the humanities who must wrestle with the problem of form and context.

Travel & Adventure in South-East Africa Oct 30 2020 In this first-hand account from explorer Frederick Selous, first published in 1893, readers follow the true story of a trailblazing adventurer in an unknown land. Selous explored the area around the Limpopo River in what is now northern South Africa and Zimbabwe. From fending off lions and hyenas to hunting the most dangerous game Africa, Selous' safari was mythic-the very foundation of the Western world's romance with the Dark Continent. Anyone who has ever dreamed of visiting Africa will be enchanted by the real-life adventures of the man who inspired the fictional Allan Quatermain. British hunter and explorer FREDERICK COURTENAY SELOUS (1851-1917) was a renowned traveler and conservationist, spending much of his time charting the continent of Africa. He sent many animal trophies back to England to be displayed in museums and helped American president Teddy Roosevelt on a similar mission to supply the Smithsonian. Selous wrote a number of books about his adventures, including A Hunter's Wanderings in Africa (1881) and Sunshine & Storm in Rhodesia (1896). A hunting reserve in Tanzania now bears his name.

Speculative Wests Jul 07 2021 Looking across the cultural landscape of the twenty-first century, its literature, film, television, comic books, and other media, we can see multiple examples of what Shelley S. Rees calls a "changeling western," what others have called "weird westerns," and what Michael K. Johnson refers to as "speculative westerns"--that is, hybrid western forms created by merging the western with one or more speculative genres or subgenres, including science fiction, fantasy, horror, and alternate history. Speculative Wests investigates both speculative westerns and other speculative texts that feature western settings. Just as "western" refers both to a genre and a region, Johnson's narrative involves a study of both genre and place, a study of the "speculative Wests" that have begun to emerge in contemporary texts such as the zombie-threatened California of Justina Ireland's *Deathless Divide* (2020), the reimaged future Navajo nation of Rebecca Roanhorse's *Sixth World* series (2018-19), and the complex temporal and geographic borderlands of Alfredo Vea's time travel novel *The Mexican Flyboy* (2016). Focusing on literature, film, and television from 2016 to 2020, Speculative Wests creates new visions of the American West.

This Is This Country Mar 27 2023 Listen up chumps, basically the Vicar asked us to edit the parish newsletter this month, we weren't gonna do it at first cos the vicar said 'I want you to channel your energy into doing something creative', which he knows brings back Kurtan's PTSD cos our old woodwork teacher Mr Perkins used to say it to him all the time, and when Kurtan actually DID channel his energy into something creative he managed to sand down some MDF to make a back scratcher and Darren Lacey pointed at it and laughed and called it an 'abomination to woodwork', which made Kurtan throw a chair across the room in rage and one of the chair legs hit Rob Robinson and left a dent in his forehead. So we decided to write this newsletter cos people need to the know the REAL s\*\*\* that goes down in our village, it ain't just fetes and duck races you know - it's proper f\*\*\*\*\* up. All the best, Kerry and Kurtan p.s. Kurtan wants to make it clear that although this newsletter is in book format it does not make him any of the following: Book Worm Book bummer Boffin Nerd alert The lion, the witch and the book worm p.p.s If you don't buy this newsletter that's fine, but we are getting a percent of the profits to donate to the Kerry Mucklowe eating fund, so if you don't buy it I'll basically starve. Which is fine if your conscience can deal with that utter headf\*\*\*.

codes of surveillance When Donald Trump promised to “build a wall” on the U.S.-Mexico border, both supporters and opponents visualized a snaking barrier of concrete cleaving through nearly two thousand miles of arid desert. Though only 4 percent of the US population lives in proximity to the border, imagining what the wall would look like came easily to most Americans, in part because of how images of the border are reproduced and circulated for national audiences. *Border Optics* considers the US-Mexico border as one of the most visualized and imagined spaces in the US. As a place of continual crisis, permanent visibility, and territorial defense, the border is rendered as a layered visual space of policing—one that is seen from watchtowers, camera-mounted vehicles, helicopters, surveillance balloons, radar systems, unmanned aerial vehicles, and live streaming websites. It is also a space that is visualized across various forms and genres of media, from maps to geographical surveys, military strategic plans, illustrations, photographs, postcards, novels, film, and television, which combine fascination with the region with the visual codes of surveillance and survey. *Border Optics* elaborates on the expanded vision of the border as a consequence of the interface of militarism, technology, and media. Camilla Fojas describes how the perception of the viewing public is controlled through a booming security-industrial complex made up of entertainment media, local and federal police, prisons and detention centers, the aerospace industry, and all manner of security technology industries. The first study to examine visual codes of surveillance within an analysis of the history and culture of the border region, *Border Optics* is an innovative and groundbreaking examination of security cultures, race, gender, and colonialism.

*The World of Languages and Literatures* Sep 09 2021 This book offers contemporary perspectives on different registers of instruction, media language, the effectiveness of a multi-literacies program for introducing English as a Foreign Language, promoting religious tolerance through literature and music, teaching drama, intercultural communication, gender studies and literature studies. By using contemporary research methods, the contributors here offer insights into the ways in which the world of languages and literatures changes and evolves to face the constant challenges resulting from new instructional practices and research investigations, allowing educators, researchers and students alike to keep up with, and stay current in, all areas relating to language and literature. These illuminating essays highlight the dynamic global prism through which contemporary scholars view these issues and surpass any strict set of rules, which would otherwise lead them to ignore the ever-shifting changes in language and literature and the accompanying cultural spaces and realities.

Why Tammy Wynette Matters      Nov 11 2021 How Tammy Wynette channeled the conflicts of her life into her music and performance. With hits such as "Stand By Your Man" and "Golden Ring," Tammy Wynette was an icon of American domesticity and femininity. But there were other sides to the first lady of country. Steacy Easton places the complications of Wynette's music and her biography in sharp-edged relief, exploring how she made her sometimes-tumultuous life into her work, a transformation that was itself art. Wynette created a persona of high femininity to match the themes she sang about—fawning devotion, redemption in heterosexual romance, the heartbreak of loneliness. Behind the scenes, her life was marked by persistent class anxieties; despite wealth and fame, she kept her beautician's license. Easton argues that the struggle to meet expectations of southernness, womanhood, and southern womanhood, finds subtle expression in Wynette's performance of "Apartment #9"—and it's because of these vocal subtleties that it came to be called the saddest song ever written. Wynette similarly took on elements of camp and political critique in her artistry, demonstrating an underappreciated genius. Why Tammy Wynette Matters reveals a musician who doubled back on herself, her façade of earnestness cracked by a melodrama that weaponized femininity and upended feminist expectations, while scoring twenty number-one hits.
